EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ansel M. Schwartz on May 26, 2004.

The application has been amended as follows:

Claims **1, 2** and **12-59** are cancelled.

In claim 3, line 1, after "A method for analyzing" insert 3D motion of

In claim 4, line 1, delete --cell-- and replace with cellular performance

Drawings

New corrected drawings are required in this application because they are not formal drawings. Formal Drawings required. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

Claims **3-9** and **11** are allowed.

The following is an examiner's statement of reasons for allowance: Claim 3 is allowable because the prior art does not teach or fairly suggest a method of analyzing cells by 3D motion where methyl cellulose is used to slow down cell mobility to a point where monitoring can take place. Claim 4 allowable because the prior art does not teach or fairly suggest a method of analyzing the cellular performance by applying methyl cellulose to slow down cell mobility to a point where monitoring can take place. All depending claims are allowable. Cellular performance is defined by the specification (paragraph 56 or page 4, right column 4th paragraph) as being a kinetic analysis that includes a cells motility, morphology, protein expression and /or phenotypical changes. Table 1 includes cellular parameters currently being mathematically modeled and calculated. All depending claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
